27 May 2016

Dear Neighbour,

I wanted to write personally to let you know about potential building works at the school, for which we are currently seeking planning permission.

In recent months we have been working with the London Borough of Camden to support them in delivering the government's strategy for providing school places for 2 year-old children, particularly those from a disadvantaged background. To this end we have committed to provide a number of spaces for 2 year-old children from January 2017.

We need to make adaptations to some of our facilities if we are to provide these places, and earlier this week we applied for planning permission for the necessary building works.

There will be an opportunity to view and comment on the proposals through the planning consultation process, notification of which should be issued shortly by the local planning authority. You can also access these directly via Camden's planning portal, by following these steps:

1. Visit the planning portal at  
<http://www.camden.gov.uk/ccm/navigation/environment/planning-and-built-environment/>
2. Click 'search for planning applications, decisions and appeals'
3. Search using Application Number 2016/2472/P

Should our application be successful we anticipate works will start in July 2016, with the first phase to be complete for January 2017 ready for the first intake of 2 year-olds.

All comments and questions are welcomed as part of the planning consultation process, and I would encourage you to take the opportunity to view and comment on the plans during that period.

Please do feel free to get in touch should you have any queries in the meantime.

Yours faithfully

Marianne Porter  
Headteacher  
Brecknock Primary School

David Walter  
Senior Project Manager  
London Borough of Camden
