

## Message from the head

We were all pleased to welcome the spring solstice with some lovely spring weather, the plants are coming out, the days are getting longer and the end of the important spring term approaches. This is when a huge amount of learning takes place so do please make sure that you have made an appointment for a parent consultation next week so that your child's teacher can share their learning and answer any questions you might have about how you can help at home.

Do check in regularly to the school website ([www.brecknock.camden.sch.uk](http://www.brecknock.camden.sch.uk)) and our Twitter feed (@BrecknockSchool) to find out about all the brilliant Brecknock learning which happens every day.

## Skittle Art

During Science week, the reception classes enjoyed making skittle art! They wanted to find out if they could remove the colours from the sweets and if they could arrange them into a pattern, by dripping water on them. What an amazing experiment, well done!

## Year 5 Rockets!

Jamaica and Cuba made their own self-propelled rockets from juice bottles. They added broken vitamin c tablets to the juice bottles, gave them a little shake and placed them upside down in a glass of water. This caused a chemical reaction, which produced gas, which in turn propelled the bottle rocket! The hotter the water the more vigorously the tablets produce gas.

## Year 1 Fish Dissection

Year 1 were very braved this week to dissect fish in the class!

Callum from Skye class said "It was squashy, squelchy and stinky!"

## 14 North Villas

We have been so lucky and are very privileged to have received a beautiful replica model of No.14 North Villas. Thank you Mike and Kenneth for donating this incredible model It is sure to inspire a great deal of cross curricular learning!
