

Hello children of Year 4,

How are you? It is very strange being at home every day, but I am enjoying spending time with my family. However, I am missing you all.

Spending time indoors can be boring at times, but I have decided to start new hobbies. For example, most evenings I colour in a colouring book. I like to choose the most challenging patterns to colour and sit for at least an hour completing it. It is good to focus, sometimes I put music on in the background. However, I hate sharpening my colouring pencils! It made me wonder, why do you all enjoy it so much?!

I have also started running. Every morning I wake up early, put my trainers on and run to the park. The weather has been beautiful; I am very grateful for the sunshine and fresh air. I hope you have been able to enjoy the sunshine, whether it be on your balcony, in your garden, or for a quick walk down the road.

What have you been up to? Have you started any new hobbies?

It would be great to hear from you.

From Zoë
