

Physical Development

It's Time to Move!

Log on to BBC Dance and enjoy two dance sessions exploring plant germination and seed dispersal. [Find it here](#)

Let's get our fingers and hands strong and ready to write!

Playdough play every day works wonders for early writing! [Find inspiration here](#)

EYFS Home Learning

Week 5: Growth

Understanding The World

Spring has sprung! You don't need outdoor space to start your urban garden...

Why not sew some seeds and watch your vegetables grow. Talk about the [science here](#) and find some [urban gardening ideas here](#)

Communication and Language

Listen to the stories we have suggested here.

Who are the characters in the story?

What happened first?

Then what happened?

What happened at the end of the story?

Did you enjoy it? Why/not?

What was your favourite page?

Tell someone at home about these stories. Can you listen again and help to retell the story?

(Perhaps mute the sound and let your child retell it to you as the clip unfolds)

Literacy

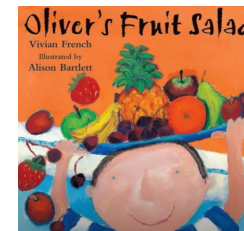

Here are some great picture story books about growth!

[The Very Hungry Caterpillar - Eric Carle](#)

[Jasper's Beanstalk—Nick Butterworth](#)

[The Enormous Turnip—Traditional Tale](#)

[Oliver's Fruit Salad—Vivien French](#)

Maths

Can you measure the people in your house using bottles?

Pasta? Tubes? Who is the tallest? Who is the shortest? Why do you think so? Can you count and record

each person's

measurements?

Art & Design

Can you find something in your house that you can sew some seeds in? Perhaps an egg carton or small box? What will you need to help the seeds grow? Will it need holes? Can you design a logo or decorate it? Send your teacher some pictures!
