

Isaac Newton – Fact File Task!

So this week we have been learning about Forces and Magnets to remind us of our second science topic!

Cast your minds back – do you remember Sir Isaac Newton? One of the main things he is famous for is his work on gravity which we briefly covered. We spent some time learning about Sir Isaac himself.

For this task, we would like you to create a fact file about Sir Isaac Newton. We would like you to include some of the following information about him in any order but you can add more:

When and where was he born?

Where did he grow up?

Who did he live with/grow up with?

What did his parents do?

At what age did he go to school/have to leave school?

What did he like studying when at school?

Who helped convince his mum about university?

What did he study at university?

What were his discoveries?

When did he die?

What is he remembered for?

Remember, these are just to guide you. Do your own research online and then fill in the fact file sheet below.

Isaac Newton Fact File
