
Endangered Creature

Imagine a creature called a Tongo Lizard.

It is an endangered creature, which means that very few remain and

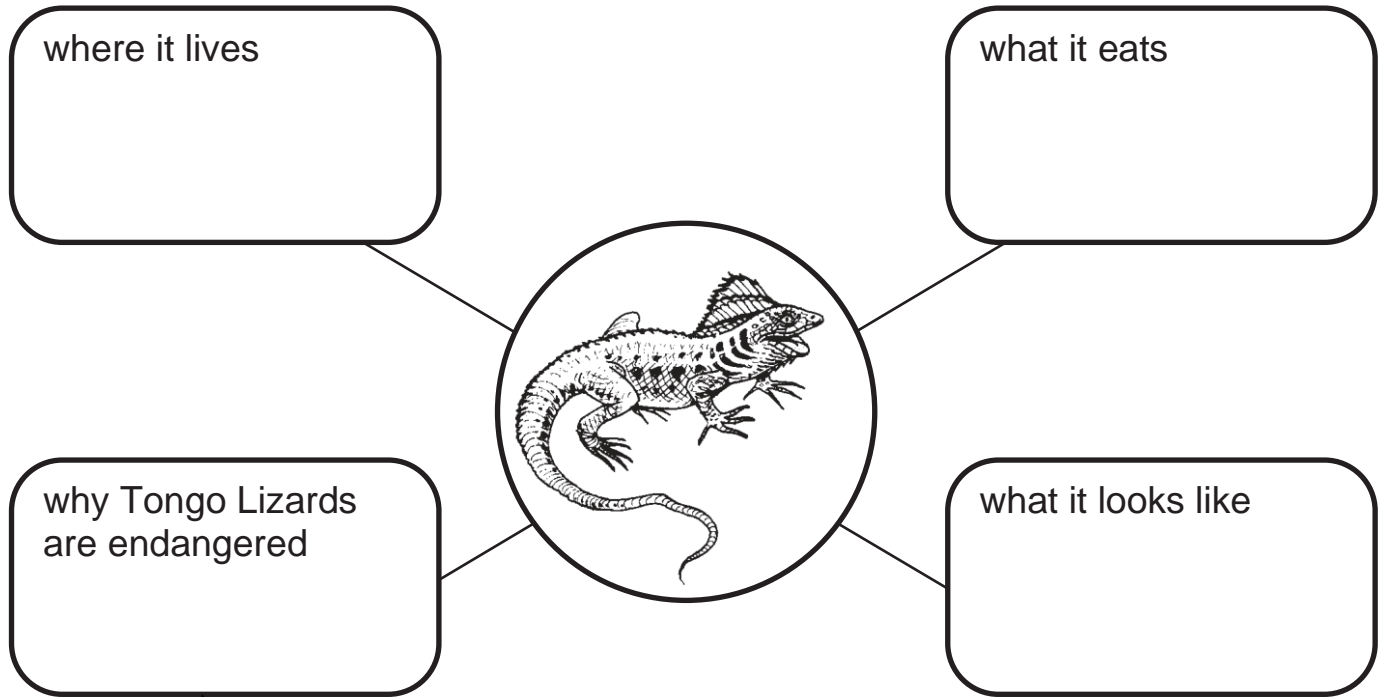

it may become extinct.

An information book about endangered creatures is being prepared.

Your task is to write the page about the Tongo Lizard.

You can make up the information using your imagination.

PLANNING

Animals can be endangered for a variety of reasons but the basic one is some kind of change in their environment. This can be due to climate change, hunting, being eating by pray, trees being cut, etc. If the animal lives in water or has to lay eggs in water, lack of rivers, lakes or ponds can be a major factor. Can you think of other reasons why Tongo Lizard may be endangered?

Remember to post your edited work on the school website
