

Design your own school logo and motto!

Look at the image above. This is our school logo and motto!

For this activity, we would like you to design your own school logo. Think about what school represents and what school means to you! Then have a think about the image you would like and colours that you will use. The possibilities are endless! Once you have completed your design, can you think of a short phrase that fits in with the school and the amazing things you do there!

Good Luck!

We would love to see some of your amazing designs if you would like to share them with us.
