

Get creative and write two ways you could:

1. Clean your teeth without a toothbrush
2. Cook toast without a toaster
3. Paint a chair without a paintbrush
4. Mow the lawn without a mower
5. Hit in a nail without a hammer
6. Remove leaves from a lawn without a rake
7. Move a small boat through water without oars or a motor
8. Leave a message for a friend without pen, paper, 'phone or computer

Now, choose your best idea out of the two you have thought of.

Write instructions to explain how to carry out your idea.

Think carefully how your instructions should look on paper. Consider what you will need to do to make your instructions easy to follow and understand.
