

Brecknock Year 6 Wider Curriculum Home Learning Matrix

Art and PE

Exercise is crucial to good mental and physical health, especially when we are staying at home for long periods of time as we have been doing for the last few weeks. [Here is a poster drawn by Chloe in Madagascar class.](#) Do one of your own and send it to your teacher

Computing

Try making one or more of the following games on scratch.

<https://scratch.mit.edu/studios/1784883/>

You can then show us what you have created. You can even make a video of it to share; you will need to get your parents/carers to help you make the video to share.

Science

Natural selection is supposed to be hard to understand but it really is quite basic. [Here is an excellent example of it.](#) Watch it and write what you understand about natural selection.

SCIENCE

Charles Darwin is considered to be one of the most important scientists that ever lived. Who was Charles Darwin and why is he so famous? There are lots of child friendly videos about him and BBC Bitesize is very good for this. Research and write a summary of Darwin's work.

French

Can you order a meal in French? I can't but I will learn the basics and role play with my family.

Do the same!

English: what is today's special?

French: quelle est la spéciale du jour?

Listen to how it said on google translate.

Geography and History

What is the European Union (EU)? Research when the EU was established, how many members it had originally and how many members it has now. Can you name the capital cities of the member states of the EU? What happened recently to change the UK's membership of the EU?
