

+ Addition + - Subtraction - x Multiplication x

1	2	3	4
5	6	7	8
9	10	11	12
15	18	20	25

How to play

You will need two players, two dice and counters of two different colours (four each). Roll the dice and choose...

+Addition – add the two numbers together

- Subtraction – find the difference between the two numbers

x Multiplication – multiply the two numbers together

If you can make a number on the grid put a counter on it. First player to have 4 counters on the grid wins!
