# Google Classroom Sign In

With additional ways to sign in

Google Classroom

STEP 1

Type into the search bar: **Google Classroom Sign In**

Click **'Go to Classrooms'**

Get more time to teach and inspire learners with Classroom

A free and easy tool helping educators efficiently manage and assess progress, while enhancing connections with learners from school, from home, or on the go.

[Get G Suite for free]   [Go to Classroom]

STEP 2

Sign in: Enter your child's USO username followed by **@brecknockprimary.co.uk**

For example: **iteacher.202@brecknockprimary.co.uk**

The USO usernames and passwords were given to individual children. Contact your child's teacher or the office if you have lost it.

Step 3

Use your child's USO username in the first line.

This time, the USO username should **NOT** include the @brecknockprimary.co.uk part.

For example: **child'sname.202**

Enter your child's password in the next box. It should contain letters and a number.
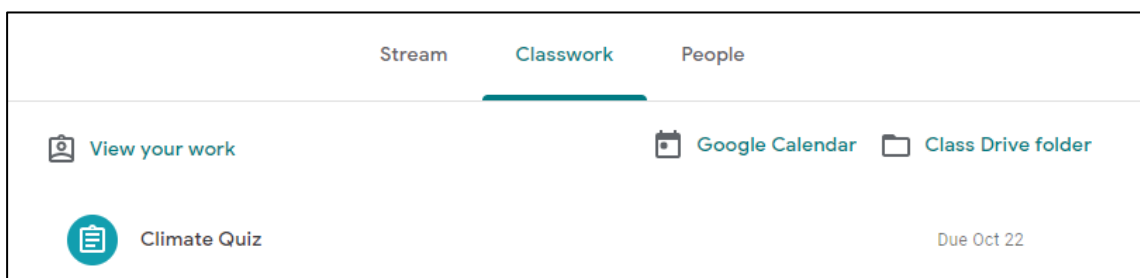

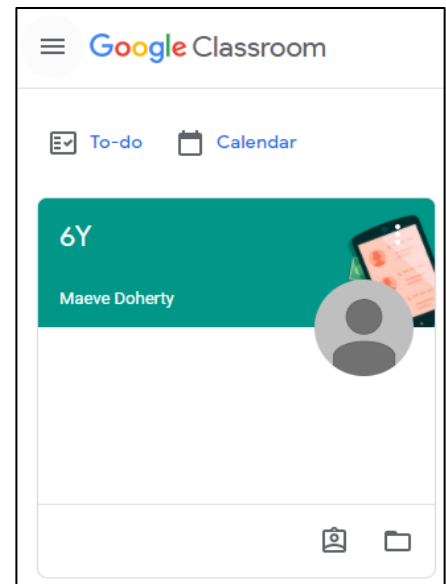

You will be asked to verify your account if it is the first time you have logged on from your computer. **Press continue.**

Login

❶ If you are using a public or shared computer, please ensure that you log out and close all browser tabs so the next user is unable to access your account.
Note for system administrators: do not enable any browser features that re-open recently-viewed web pages at startup.

Step 4

Inside, click on your child's class. You will see posts from your child's teacher. The posts will contain activities, questions and ideas to support home learning which the children can use. Some tasks require the children to fill in a document and "Turn them in" or upload a document. Children are being taught how to do this in school.

In the event of a Bubble or school closure, there will be new work uploaded daily. Click on **Classwork** to view the assignments.

Additional ways to access:

How to use Google Classroom on Xbox One & Xbox Series X/S

The Xbox consoles each have access to Microsoft Edge – the web browser that comes preinstalled as part of the Xbox user experience. This can be used to access Google Classroom (or another online education service approved by your child's school).
1. Plug a wired keyboard into your Xbox One, Xbox Series X or Xbox Series S via one of the USB ports on the front or back.
2. Press the Xbox button top-centre of a game controller and head to "My games & apps" in the side menu.
3. Click on "See all", scroll down to "Apps" and you will see Microsoft Edge in the icons on the right-hand side. Open it.
4. Type classroom.google.com into the URL bar at the top and log in as you would on a PC using your school Gmail account.
5. You can either use an Xbox controller to move the cursor or a separate USB mouse plugged into one of the other ports.

How to use Google Classroom on PS4 & PS5

The PlayStation 4 has its own web browser that is easy to find on the PlayStation 4 (in the content menu as an icon with WWW written on it). However, it's currently a bit trickier on PS5, as there is no way to open the browser natively.
Instead, you can open the System Settings, then the User Guide. This will open up an online user manual inside a web browser page so you only have to change the URL at the top. Otherwise, the rest of the steps are the same.

1. Plug a wired keyboard and/or mouse into the USB ports on the PS4 or PS5 – each console should recognise them.
2. In the URL bar of the browser, type classroom.google.com and then log in using the details provided by your child's school.
3. You can now access Google Classroom.

In some cases you might not be able to do everything you can on a laptop or PC, but you can, at the very least, access Google Classroom and see what work your teacher has assigned for you to do.
