Appendix 1: accident report form (information to be recorded on CPOMS, using the prompts below) ...	8

1. Aims

The aims of our first aid policy are to:

- Ensure the health and safety of all staff, pupils and visitors
- Ensure that staff and governors are aware of their responsibilities with regards to health and safety
- Provide a framework for responding to an incident and recording and reporting the outcomes

2. Legislation and guidance

This policy is based on the [Statutory Framework for the Early Years Foundation Stage](#), advice from the Department for Education on [first aid in schools](#) and [health and safety in schools](#) and the following legislation:

- [The Health and Safety \(First-Aid\) Regulations 1981](#), which state that employers must provide adequate and appropriate equipment and facilities to enable first aid to be administered to employees, and qualified first aid personnel
- [The Management of Health and Safety at Work Regulations 1992](#), which require employers to make an assessment of the risks to the health and safety of their employees
- [The Management of Health and Safety at Work Regulations 1999](#), which require employers to carry out risk assessments, make arrangements to implement necessary measures, and arrange for appropriate information and training
- [The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations \(RIDDOR\) 2013](#), which state that some accidents must be reported to the Health and Safety Executive (HSE), and set out the timeframe for this and how long records of such accidents must be kept
- [Social Security \(Claims and Payments\) Regulations 1979](#), which set out rules on the retention of accident records
- [The School Premises \(England\) Regulations 2012](#), which require that suitable space is provided to cater for the medical and therapy needs of pupils

3. Roles and responsibilities

3.1 Appointed person(s) and first aiders

The school's appointed person is Laura Lien, Deputy Director of Inclusion and Learning. They are responsible for:

- Taking charge when someone is injured or becomes ill
- Ensuring there is an adequate supply of medical materials in first aid kits, and replenishing the contents of these kits
- Updating the Medical Policy, ensuring it remains in line with this First Aid policy
- Ensuring that an ambulance or other professional medical help is summoned when appropriate
- Ensuring first aiders are trained and qualified to carry out the role (see section 7) and are responsible for:
 - Acting as first responders to any incidents; they will assess the situation where there is an injured or ill person, and provide immediate and appropriate treatment
 - Sending pupils home to recover, where necessary
 - Completing an incident report, using CPOMS, on the same day, or as soon as is reasonably practicable, after an incident (see the template in appendix 1 for prompts)
 - Keeping their contact details up to date

The school will keep an online register of all trained first aiders. Their names will also be displayed prominently around the school.

3.2 The local authority and governing board

Camden has ultimate responsibility for health and safety matters in the school, but delegates responsibility for the strategic management of such matters to the school's governing board.

The governing board delegates operational matters and day-to-day tasks to the Executive Headteacher, Head of School and staff members.

3.3 The Executive Headteacher and Head of School

The Executive Headteacher and Head of School has overall responsibility for the implementation of this policy. They delegate these responsibilities to the appointed person, Laura Lien, Deputy Director of Inclusion and Learning, whose roles include:

- Ensuring that an appropriate number of trained first aid personnel are present in the school at all times
- Ensuring that first aiders have an appropriate qualification, keep training up to date and remain competent to perform their role
- Ensuring all staff are aware of first aid procedures
- Ensuring appropriate risk assessments are completed and appropriate measures are put in place

- Undertaking, or ensuring that managers undertake, risk assessments, as appropriate, and that appropriate measures are put in place
- Ensuring that adequate space is available for catering to the medical needs of pupils
- Auditing responsibilities for class and whole school first aid supplies
- Reporting specified incidents to the HSE when necessary (see section 6)
- Obtaining and disseminating advice on other health conditions, such as headlice and chicken pox, following current healthcare guidance.
- Liaising with the School Nurse to support with health related matters

3.4 Staff

School staff are responsible for:

- Ensuring they follow first aid procedures
- Ensuring they know who the first aiders in school are
- Ensuring they know about the medical needs of the children in their care, including where to find Individual Healthcare Plans (See Medical Policy)
- Completing accident/incident reports using CPOMS for all incidents they attend to where a first aider is not called
- Informing the Executive Headteacher or their manager of any specific health conditions or first aid needs

4. First aid procedures

4.1 In-school procedures

In the event of an accident resulting in injury:

- The closest member of staff present will assess the seriousness of the injury and seek the assistance of a qualified first aider, if appropriate, who will provide the required first aid treatment
- The first aider, if called, will assess the injury and decide if further assistance is needed from a colleague or the emergency services. They will remain on the scene until help arrives
- The first aider will also decide whether the injured person should be moved or placed in a recovery position
- If the first aider judges that a pupil is too unwell to remain in school, parents will be contacted and asked to collect their child. Upon their arrival, the first aider will recommend next steps to the parents. SLT must be informed of any judgement to send a child home and a CPOMS record made.
- If emergency services are called, the appointed person will contact parents immediately
- The first aider will record details of the injury and treatment, using CPOMS, on the same day or as soon as is reasonably practical after an incident resulting in an injury

There will be at least 1 person who has a current paediatric first aid (PFA) certificate on the premises at all times.

4.2 Off-site procedures

When taking pupils off the school premises, staff will ensure they always have the following:

- A mobile phone
- A portable first aid kit including, at minimum:
 - individually wrapped sterile adhesive dressings
 - large sterile unmedicated dressing
 - triangular bandages – individually wrapped and preferably sterile
 - safety pins
 - Individually wrapped moist cleansing wipes
 - disposable gloves
- Information about the specific medical needs of pupils, including any individual medications and care plans. See Medical Policy
- Access to parent contact details

When transporting pupils using a minibus or other large vehicle, the school will make sure the vehicle is equipped with a clearly marked first aid box.

Risk assessments will be completed by the class teacher and approved by the Head of School prior to any educational visit that necessitates taking pupils off school premises.

There will always be at least 1 first aider with a current paediatric first aid (PFA) certificate on school trips and visits, as required by the statutory framework for the Early Years Foundation Stage. Where a first aider is not required, staff will have identified alternative first aid arrangements for their journey.

5. First aid equipment

A typical first aid kit in our school will include the following:

- individually wrapped sterile adhesive dressings (assorted sizes)
- sterile eye pads
- individually wrapped triangular bandages (preferably sterile)
- safety pins
- medium-sized individually wrapped sterile unmedicated wound dressings
- large sterile individually wrapped unmedicated wound dressings
- disposable gloves

No medication is kept in first aid kits.

First aid kits are stored in:

- The first aid area (by admin)
- All classrooms
- The playground (in the shed)
- Roof playground (in the shed)
- The lunch room
- The middle and bottom hall

The appointed person is responsible for auditing these and ordering new supplies as required. Individual medications are kept in the admin cupboard. Please see Medical Needs policy for storage and administration of medicines.

Each class has access to a first aid kit, which will accompany the class on school trips, along with any individual medication required. This includes Epi-pens, asthma inhalers etc. See Medical Policy.

6. Record-keeping and reporting

6.1 First aid and accident record book

- A CPOMS incident entry will be completed by the first aider on the same day or as soon as possible after an incident resulting in an injury
- As much detail as possible should be supplied when reporting an incident.
- Records will be held securely on CPOMS and any written reports (eg RIDDOR) will be retained by the school for a minimum of 3 years, in accordance with regulation 25 of the Social Security (Claims and Payments) Regulations 1979, and then securely disposed of.
- For recording of medicine administration, see Medical Policy.

6.2 Reporting to the HSE

The appointed person will keep a record of any accident which results in a reportable injury, disease, or dangerous occurrence as defined in the RIDDOR 2013 legislation (regulations 4, 5, 6 and 7).

The appointed person will report these to the HSE as soon as is reasonably practicable and in any event within 10 days of the incident.

Reportable injuries, diseases or dangerous occurrences include:

- Death
- Specified injuries, which are:
 - Fractures, other than to fingers, thumbs and toes
 - Amputations
 - Any injury likely to lead to permanent loss of sight or reduction in sight
 - Any crush injury to the head or torso causing damage to the brain or internal organs

- Serious burns (including scalding)
- Any scalding requiring hospital treatment
- Any loss of consciousness caused by head injury or asphyxia
- Any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness, or requires resuscitation or admittance to hospital for more than 24 hours
- Injuries where an employee is away from work or unable to perform their normal work duties for more than 7 consecutive days (not including the day of the incident)
- Where an accident leads to someone being taken to hospital
- Near-miss events that do not result in an injury, but could have done. Examples of near-miss events relevant to schools include, but are not limited to:
 - The collapse or failure of load-bearing parts of lifts and lifting equipment
 - The accidental release of a biological agent likely to cause severe human illness
 - The accidental release or escape of any substance that may cause a serious injury or damage to health
 - An electrical short circuit or overload causing a fire or explosion

Information on how to make a RIDDOR report is available here:

[How to make a RIDDOR report, HSE](http://www.hse.gov.uk/riddor/report.htm)

<http://www.hse.gov.uk/riddor/report.htm>

6.3 Notifying parents

The first aider administering treatment will inform parents of any accident or injury sustained by a pupil, and any first aid treatment given, on the same day, or as soon as reasonably practicable, unless considered minor. Where the parent cannot be contacted, admin will be alerted in case of call back and alternative means to contact the parent will be made (e.g. email, end of day handover etc.). Parents must always be contacted in the event of a head bump and advised of possible signs of concussion.

6.4 Reporting to Ofsted and child protection agencies

The Executive Headteacher will notify Ofsted of any serious accident, illness or injury to, or death of, a pupil while in the school's care. This will happen as soon as is reasonably practicable, and no later than 14 days after the incident.

The Executive Headteacher will also notify MASH and/or LADO of any serious accident or injury to, or the death of, a pupil while in the school's care.

7. Training

All school staff are able to undertake first aid training if they would like to.

All first aiders must have completed a training course, and must hold a valid certificate of competence to show this. The school will keep an online register of all trained first aiders, what training they have received and when this is valid until.

The school will arrange for first aiders to retrain before their first aid certificates expire. In cases where a certificate expires, the school will arrange for staff to retake the full first aid course before being reinstated as a first aider.

At all times, at least 1 staff member will have a current paediatric first aid (PFA) certificate which meets the requirements set out in the Early Years Foundation Stage statutory framework. The PFA certificate will be renewed every 3 years.

8. Monitoring arrangements

This policy will be reviewed by the appointed person, annually.

At every review, the policy will be approved by the Executive Headteacher and Governing Body.

9. Links with other policies

This first aid policy is linked to the:

- Health and safety policy
- Medical Policy

Appendix 1: accident report form (information to be recorded on CPOMS, using the prompts below)

NAME OF INJURED PERSON		ROLE/CLASS	
DATE AND TIME OF INCIDENT		LOCATION OF INCIDENT	
INCIDENT DETAILS			
Describe in detail what happened, how it happened and what injuries the person incurred.			
ACTION TAKEN			
Describe the steps taken in response to the incident, including any first aid treatment, and what happened to the injured person immediately afterwards.			
FOLLOW-UP ACTION REQUIRED			
Outline what steps the school will take to check on the injured person, and what it will do to reduce the risk of the incident happening again.			
NAME OF PERSON ATTENDING THE INCIDENT			
SIGNATURE		DATE
